

OBSERVER REPORT

We welcome Anna Kelly our new observer for the Talawanda Board of Education. Anna is a retired Talawanda teacher and brings a wealth of experience to this important position. Dessie White, who was a founding member of Oxford League of Women Voters, was Anna's grandmother so there is a strong family history with the League.

A part of Anna's report follows. "Michael Stein gave an update on the Butler County Outreach program. Ben Posey and Charlie Jahnigan gave an update on the Kramer building project. The summary stated that the building is still on target for a December 2016 completion date. There are 303 days left to complete the building. The budget has not changed and they are still about to build in a recovery schedule. Much work is still being done on Saturday to complete the targeted dates. Questions were asked concerning the target dates because the weather has been so mild this winter. Mr. Posey explained that. Mr. Davis pointed out that currently TSD is in a good place because they have cash on hand for investment."

To read the complete report on the TSD regular meeting held February 8, 2016 go to the members only site. You will also be able to read the Oxford City Council observer reports done by Prue Dana. If you are interested in becoming an observer contact Jane Fryman at 523-4932. It is an excellent way to learn more about your local government.

Many apologies to Jane Fryman! I failed to include this in the body of the VOTER!
